## TRI-RANGE (Formulated specifically for Contract Cleaners)

CLEANRIGHT TRI BLACK DIP D	Tri Black Dip D is a general purpose, black tar cleaner for use in households, public conveniences, mines, industrial and various food and beverage industries and organizations. Tridet Black Dip D is not recommended for use with exceptionally hard water.
CLEANRIGHT TRI BLEACH	Tri Bleach is a concentrated chlorine bleach used for the removal of stains such as tea, coffee, albumen, coke, ice-cream, curry etc. It deodorizes and is ideal for use in laundries, food factories, hospitals etc.
CLEANRIGHT TRI BLUEY	Tri Bluey is an all purpose cleaner with floral fragrance extensively used in areas where unpleasant odours prevail due to bacteria growth. Used for cleaning of walls, floors, refuse bins, sanitary bins, etc.
CLEANRIGHT TRI DET	Tri Det is a general purpose liquid detergent for the cleaning of utensils, e.g. dishes, cutlery etc. Tridet is a complete soluble and a neutral detergent for use in food processing plants
CLEANRIGHT TRI FRESH	Tri Fresh is a concentrated air freshener. Ideal of use in hotels, institutions, hospitals, old age homes, restrooms, showers, toilets, lifts, etc. It eliminates unwanted odours, kills bacteria, and freshens the air.
CLEANRIGHT TRI GLASS	Tri Glass is a superior commercial product, specially formulated to clean, brighten and polish windows, mirrors, glass blocks, glass doors, light fixtures, lenses, ceramic tiles, counter tops, display cases, etc.
CLEANRIGHT TRI GUARD	Tri Guard is a cherry scented disinfectant cleaner / deodorizer. It is used as a general purpose cleaner for walls, floors, urinals, toilets, sanitary bins, refuse bins, etc. Tri Det is an effective bactericide for a general spectrum of bacteria.
CLEANRIGHT TRI KLENZ	Tri Klenz is an all-in-one cleaner on all surfaces. Tri Klenz is used for cleaning walls, floors, window frames, kitchen tables, working surfaces, baths, showers, etc. Ideal for hotels, hospitals, kitchens, food factories, institutions etc.
CLEANRIGHT TRI OVEN	Tri Oven is an odour free oven and grill cleaner. It is non toxic and safe to use for the cleaning of oven tops, grillers, stainless steel cooking utensils, frying pots, and generally all surfaces where burnt-on food and carbon residues must be removed.
CLEANRIGHT TRI PINE	Tri Pine is a deodorant cleaner with a characteristic pine perfume containing pine oil. Ideal for the cleaning and deodorizing of all hard surfaces such as walls, floors, table tops, urinals, sanitary bins, refuse bins, etc. Safe on all surfaces.
CLEANRIGHT TRI SATIN	Tri Satin is a concentrated hand soap. For use in all liquid dispensers and central dispensing systems. Ideal for the general cleaning of soil from hands and all over the body cleaning in industrial showers.
CLEANRIGHT TRI SAN	Tri San is a pine scented disinfectant cleaner / deodorizer. It is used as a disinfectant and general purpose cleaner for walls, floors, urinals, toilets, sanitary bins, refuse bins, etc. Tri San is an effective bactericide for a general spectrum of bacteria.
CLEANRIGHT TRI SOFT	Tri Soft is an economical fabric softener and ideally suited to commercial, hospitals, institutional laundry operations as well as launderettes. It softens and imparts antistatic properties onto the fiber and brightens dull colours.
CLEANRIGHT TRI SOLVE	Tri Solve is a revolutionary new economical degreasing and cleaning compound which in its form is non-hazardous and environmentally friendly. Tri Solve is water soluble and removes all grease as well as pigments from cotton and polyester cotton garments without re-deposition.
CLEANRIGHT TRI SPRAY & BUFF	Tri Spray & Buff is a buffing compound for sealed floors. It is used to maintain sealed vinyl floor finish. Tri Spray & Buff removes soil, black heel marks and scuff from vinyl, rubber, linoleum and terrazzo tiles.
CLEANRIGHT TRI STRIP	Tri Strip is a non ammoniate floor stripper for polymer floors dressing and other floor polishers. Tri Strip contains amines and strong alkalis as well as selected solvents that penetrate and solubilise old floor coatings.
TRI WASH	Tri Wash is an economical car washing and waxing compound. It is ideal for the cleaning of motor cars, trucks, bus bodies, trailers, caravans, boats, bikes, etc. Tri Wash removes oily soil deposits, road dirt and other films, leaving a clean, shiny surface when rinsed and eliminates streaks.
DYNABOWL	Dynabowl is a cleaner for toilet bowls, urinals. It contains acids, wetting agents and corrosion inhibitors. Provides a cleaning stain remover effect on toilet bowl, urinals, etc.
DYNAGEN	Dynagen is a high foaming alcohol based general purpose cleaner and food grade degreaser formulated to economically clean a wide range of industrial and commercial areas such as plastic, glass, ceramics, chrome, steel, stone etc.

## Consumer Products

### JEM RANGE

JEM WASHING POWDER	Jem washing powder is a high-foaming washing powder which contains selected anionic detergents, water softeners, soil suspension agents and optical brighteners. It is ideal for a range of applications, including hand and machine laundry. Jem is recommended for twin tubs and is ideal for top loaders.
JEM DISHWASHING LIQUID	For manual cleaning of utensils, e.g. dishes, cutlery etc. It has excellent wetting ability penetrating and soil dispersion. It foams in use but is free rinsing. It is complete soluble in hard or salt water.
JEM SCOURING CREAM	Jem scouring cream contains detergents, wetting agents, corrosion inhibitors, sequestering and soil dispersing agents. It is used for cleaning of walls, floors, window frames, kitchen tables, working surfaces, bathrooms, showers, etc. Ideal for hotels, hospitals, kitchens, food factories, institutions etc.
JEM MULTI-PURPOSE CLEANER	Jem Multipurpose Cleaner is a revolutionary new Detergent/Degreasing compound which in its form is non-hazardous and environmentally friendly and it is water-soluble.
JEM WINDOW AND GLASS CLEANER	Jem window and glass cleaner is a superior commercial product, specially formulated to clean, brighten and polish glass surfaces without streaking. It has good antistatic properties to keep clean looking windows clean for longer. For the cleaning of windows, mirrors, glass blocks, glass doors, light fixtures, lenses, ceramic tiles, counter tops, display cases, and any glass, ceramic, painted or metal surfaces.
JEM BLEACH	Jem Bleach is a 3 - 3.5% highly concentrated chlorine bleach, used for the removal of stains such as tea, coffee, albumin, coke, ice-cream, curry, and in laundry operations. It also deodorises and disinfects in one operation.

## THE ECOWAY CONCEPT

This new range of eco-biotechnological products is part of an eco-design initiative. It is safe for users as well as for the environment, cost effective and easy to use. ECOWAY products have strong scientific support and is backed by 25 years of experience. By choosing this label, you choose a product that promotes renewable and natural resources and uses perfumes and colouring agents of natural origin. Products include cleaning and maintenance products, waste water treatment, odour treatment and vehicle cleaning products.

ACTIWAY Bacterial activator.	Ecological product for the cleaning and maintenance of drain systems. Ideal for use in piping, drain traps, grease traps, starch separators, septic tanks, waste water tanks, sumps, etc. This product should be used in conjunction with POWDERWAY.	
ALIWAY Degreaser- Food contact	Cleans and degreases any type of surface, including delicate or food contact surfaces (floors, walls, cooking tops and units, range hoods, worktops, cutting tables, refrigerated vehicles, cold rooms, etc.).	 SANS 1828
CARWAY No-rinse cleaner for vehicle	Eco-biological treatment. Ingredients include pure, natural essential plants oil and biosurfactants. Neutral pH. Upkeep and maintenance of all types of vehicle: (cars, motor bikes, caravans, busses, trucks, etc.). Apply to bodywork, metallic and plastic surfaces, dashboards, etc. Eliminates all trace of fuel, tar and insects. Antistatic.	
GLOBALWAY Toilets and urinals - Blue fragrance	Biological product. Ingredients include micro-organisms* and biosurfactants. Blue fragrance. Total treatment and deodorization of toilets and bathrooms. Triple action: cleans, treats bad odours and maintains piping. Used for toilets, urinals, enamel, stainless steel, procelain, piping, etc. Biological active ingredients improve cleaning power.	

COLOWAY L	Odour-free drain line biotreatment. Is environmentally sustainable, highly effective and long-lasting treatment of drain pipes and lines. Eliminates bad odours and clears clogs.
INSECTWAY Anti-insects	Liquid repellent, ingredients include biosurfactants and essential oils. Effective against flies, cloth moths, mosquitoes ( <i>Aedes aegypti</i> ). May be used indoors, on fabrics, mattresses, window frames, etc.
LIQUIDWAY Grease traps and piping	Biological treatment. Ingredients include micro-organisms* in a liquid suspension, biosurfactants** and essential oils of citrus fruits. All active ingredients are of natural origin. Improves destruction of grease in piping, drain traps, grease traps, septic tanks, etc. Prevents recurrence of bad odours. Biogradation of grease and fecal matter in piping.
MULTIWAY Multi-purpose Degreaser	Biological product for cleaning and degreasing of all washable surfaces. Contains biosurfactants and vegetable-based active ingredients. Fresh Fragrance. Cleaning of floors, walls, range hoods, cooking tops, garden furniture, etc.
NAT'GLASS Windows and smooth surfaces	High-performance ecological formula for cleaning any smooth or glass surface. 100% natural fragrance, mix of essential oils with a soft and fresh hesperidice fragrance. Cleaning of floors, mirrors, windows, screens, frames, plexiglass, spectacles, aluminium window frames, stainless steel, windscreens, etc.
NAT'MULTI Multi-purpose Degreaser	Ecological product for cleaning and degreasing of any washable surfaces. Based on vegetable and biotechnological origin ingredients. 100% natural fragrance, developed around a hesperidic note of warm and aromatic lavender. For cleaning of floors, walls, extractor hoods, cooking tops, garden furniture or any washable surface.
ODORWAY	Odour Destroyer. Neutralizing, ingredients include biosurfactants and essential oils. Clove fragrance. Atmosphere and fabrics. Neutralizes bad odors in fabric, halls, kitchen, toilets, laundries, gymnasiums, vehicles, public transportation, boat holds, dustbin stores, ventilation shafts, animal litters, etc. May be used on upholstery, curtains, rugs, carpets, etc. Also works in urban and industrial waste water networks as well as wastewater treatment plants.
POWDERWAY Septic and waste water tanks	Biological treatment using water soluble doses containing micro-organisms* (on mineral carriers) and trace elements. Improves destruction of grease and fecal matter in piping, drain traps, septic tanks, water tanks, sumps, drains, etc. For best results, use with ACTIWAY.
PUREWAY AQUA Biological Cleaner <small>Act5GNR529/242304/140/0673.</small>	Liquid disinfectant. TP2: Disinfectant and degreasing cleaner. Concentrated formula for cleaning of toilets, bathrooms, floors, walls, range hoods, door handles, etc.
SANIWAY Porcelain and toilets	Biological product. Contains vegetable active ingredients and biosurfactants. Apple fragrance. Ready-to-use formula for cleaning all surfaces in bathrooms and toilets: enamel, porcelain, stainless steel, taps, shower cubicles, tiling, hand basins, etc. The biological active ingredients improve cleaning power.
STRODORWAY Super odor destroyer	Neutralizer for bad odours. Ingredients include biosurfactants and fragrance. Liquid effluents, surfaces and atmosphere. Prevents recurrence of bad odours and deodorizes. Can be used in household waste tips, dustcans, compactors buildings for animals and food processing, industrial effluent, etc.
TISSUWAY Fabric and carpet cleaning	Product containing pure, natural essential plant oils for cleaning any fabric surface. Neutral pH. Stain remover for seats, carpets, rugs, car interiors, curtains, etc. This product may be used in organic foaming in accordance with RCE no. 834/2007.
WASHWAY Manual dishwashing	Ecological, odourless washing-up, 100% vegetable origin. Gentle to hands. Manual dishwashing liquid for fragile and all other dishes.

# Kitchen Hygiene

## DISHWASHING

Manual Dishwashing		
GENDET	Liquid dishwashing detergent that lifts, removes and suspends foods and greases in all water conditions. Neutral pH. Can be used for general cleaning.	 SANS 1828
GENDET E	Economical liquid dishwashing detergents that lifts, removes and suspends foods and greases in all water conditions. Neutral pH. can be used for general cleaning.	 SANS 1828
Machine Dishwashing		
DYNABRITE L	The supreme commercial liquid detergent for automatic dishwashers. Superior cleaning properties. Prevents scale. Cleans and disinfects.	 SANS 1828
DYNABRITE P	Powder for automatic, commercial and domestic dishwashers. Ideal for manual dosing. Excellent cleaner. Non-caustic formula.	
RINSOL	Rinse additive for automatic dishwashers. It reduces spotting, streaking and imparts	 SANS 1828
DE-LIME	An efficient cleaner for the removal of scale build up in dishwashers. It removes scale, thus enhancing efficient machine operation. Rinse additive for Glass Washers.	 SANS 1828

## PERSONAL HYGIENE

SYNBAC	Viscous, antibacterial liquid hand soap with a neutral odour. It is recommended for use by processing equipment. Ideal for meat, fish, poultry and beverage processing plants.	 SANS 1853
BACTROJELL	Ready to use disinfectant jell for disinfection of hands prior to food handling. Safe to use on broken or irritated skin. Destroys harmful bacteria present on hands	 SANS 1853

## SURFACE CLEANING AND SANITISATION

MAXISAN ACT29GNR529/242304/040/438	Odourless highly concentrated disinfectant and sanitizer. Especially designed for food processing establishments, hospitals, restaurants, bars, nursing homes and other similar chars, garbage pails, tables and other non-porous surfaces. No rinse required. One litre makes 100 litres of ready to use product.	 SANS 1853
---------------------------------------	--	--

DYNACIDE ACT29GMR529/242304/070/429	Powdered chlorinated disinfectant cleaner for the disinfection and cleaning of all types of equipment and utensils found in food processing plants, dairies, beverage breweries, hospitals, nursing homes, etc. It will disinfect and clean hard surfaces such as walls, floors, toilet bowls, chairs and garbage receptacles.	 SANS 1853
STERISPRAY	A clear alcohol disinfectant spray. Ideal for disinfections of floors, walls, utensils, table tops and equipment in the Food and Beverage Industries as well as Fish and Poultry Processing Plants. Sterispray can be used as effected hand dip to sanitize hand prior to food and other hygienically sensitive material	 SANS 1853

## SURFACE CLEANING

MAXISO <sub>LVE</sub>	Odourless heavy duty general purpose cleaner for routine cleaning of moderately soiled areas including table tops, walls, floors, counter tops, refrigerators, appliances, etc. Removes grease, fat, oil, grime and common soils from all water safe surfaces. High dilution ratio: one litre makes 80 litres of ready to use product.	 SANS 1828
ALLSURFACE	A fast acting, multi purpose cleaner for use on all surfaces. Used at high dilution ratios.	 SANS 1828

## STAINLESS STEEL CLEANING

STAINLESS STEEL CLEANER (Aerosol)	Cleans, polishes and protects stainless steel, plastic, formica, and porcelain surfaces. Non-corrosive, non-abrasive. It eliminates fingerprints on highly polished surfaces found in elevators, kitchen equipment, refrigerators, etc.
--------------------------------------	---

## DRAINAGE & REFUSE

DRAINO	Liquid drain cleaning compositions. Most effective solution for blocked kitchen drains.
DRAINO CRYSTALS	Granular drain cleaning compositions. Most effective solution for blocked kitchen drains
DRAINO ENZYMES L	A liquid bacteria/enzyme drain cleaner. Ideal for routinely dosing septic tanks, drains, waste pipes and grease traps. Reduces odours, liquefies organic matter. Safe on all plumbing systems and septic tanks
DRAINO ENZYMES P	A powdered bacteria/enzyme drain cleaner. Ideal for septic tanks, waste pipes and grease traps. Reduces odours, liquefies organic matter. Safe on all plumbing systems and septic tanks.
BIOFRESH	A concentrated liquid that produces microbes to digest organic matter, render surfaces clean and neutralize undesirable odours. It breaks down dirt, grease and fat from floors and reduces grease in drains. Environmentally friendly product.
LIPIDWAY	Lipidway offers environmentally sustainable, highly effective and long-lasting treatment of grease traps, adjacent drain lines and pipes. Digests greases and eliminates bad odours. Prevents clogging, reduces frequent cleaning.

## OVEN CLEANERS

CUTTING EDGE	Oven cleaner, grease remover, non-caustic based, environmentally friendly. Provides rapid, thorough removal of baked-on grease, and food from ovens, stovetops, grids, extraction hoods, rotisseries, and other surfaces where carbonized oils, fats and grease exists.	 SANS 1828
GRIDDLE-CLEAN	The Griddle system is a complete griddle cleaning system featuring a powerful, but safe liquid cleaner that loosens and lifts burnt-on food soil from the hot griddle. Food soil is easily and safely scoured and squeezed away.	
GREASE OFF	A fast acting, highly effective grill and oven cleaner. It easily removes baked-on grease from ovens, burners, deep fryers, grids, etc. Not for use on soft metals.	
BLAST	A versatile trouble-shooter for any 'hard to remove' burnt-on foods and grime. The aerosol allows easy spray-on application to target areas, followed by removal with a soft, clean cloth. No mess, no fuss.	

## SPECIALITY / ADDITIONAL PRODUCTS

DE-STAIN	Powdered Stain Remover for crockery and cutlery. Ideal for the removal of tannin type stains, such as tea and coffee stains from crockery, cutlery, teapots, urns, plastic and other inanimate surfaces.	 SANS 1853
DYNAFUEL	A spirit jelly / chaffing dish fuel. A convenient source of heat for keeping food warm. Long burning 4 hours. Odourless when burning. No carbon formation. Available also in 5lt Papsak.	
HOODSOLV	A speciality powerful degreaser for use in cyclowash extraction systems	
SUPERB	A premium highly concentrated detergent with neutral pH. Fresh lemon fragrance.	
CITRONOX	A superb general purpose cleaner made out of natural citrus extracts. Leaves a pleasant citrus fragrance in cleaned areas and on utensils.	
G.P.D.	GPD is a general purpose cleaner and can therefore be used for all cleaning operations such as washing of dishes, pots, pans, cutlery, table tops, tiles and other kitchen utensils.	
STERISPRAY ACT29G NR529/242304/110/431	An Alcohol based disinfectant. It contains bactericides, stabilizers, mild acid and corrosion inhibitors. Ideal for the disinfection of floors, walls, utensils, table-tops and equipment.	 SANS 1853
OVENCLEAN	Product contains alkalis, wetting agents, grease cutting solvents, and corrosion inhibitors, and detergents. It has no odour. It is used for the cleaning of ovens, grillers, stainless steel cooking utensils, frying pots, and generally all surfaces where burnt-on food and carbon residues must be removed.	
DYNAKLEEN HS-50	A heavy duty liquid alkaline cleaner with very good degreasing qualities. It has a wide variety of applications and has a high foaming detergency quality which is excellent for scale control. Can be used through high pressure spray washers for floors, walls, conveyors, inspection tables and equipment.	

# Housekeeping

## GENERAL CLEANERS

KLENZ	An ammoniated general purpose cleaner.	
ALLSURFACE	A fast acting, multi purpose cleaner for use on all surfaces. Used at high dilution ratios.	
MAXIBLAZE	A heavy duty all purpose cleaner with an excellent fragrance. Safe on all hard surfaces, walls, countertops, floors, doors, taps, handles, etc. one litre makes 100 litres of ready to use cleaner.	
PINEJELL	A concentrated jelly like product containing pine oil, wetting agent and corrosion inhibitors. Ideal for the cleaning and deodorising of all hard surfaces such as walls, floors, tabletops, and urinals. Safe on all surfaces.	
AEROSHINE	A stainless steel cleaner liquid application with a viscosity to allow for adhesion to vertical surfaces, yet thin enough to use in a spray application.	
STAINLESS STEEL CLEANER (Aerosol)	Cleans, polishes and protects stainless steel, plastic, formica, and porcelain surfaces. Non-corrosive, non-abrasive. It eliminates fingerprints on highly polished surfaces found in elevators, kitchen equipment, refrigerators, etc.	
POLYKLEEN	Polykleen is a heavy duty all purpose cleaner and degreaser. It is used for the cleaning of all hard surfaces e.g. walls, floors, engines, tiles, baths, etc. It removes oils, greases, inks, food stains and general from from painted and un-painted surfaces	

## CLEANERS & DISINFECTANTS

GERMAWAY ACT29GNR529/242304/072/434	A viscous cleaner and disinfectant for enamel, painted and plastic surfaces. It destroys germs while cleaning. Excellent for removing stains from urinals, toilets, etc. Also used for removing mildew and body fats from showers and baths.	
BLEACH	For the removal of stains such as tea, coffee, albumin, coke, ice-cream, curry, etc. It also disinfects and deodorizers in one operation.	
PINESAN ACT29/GNR529/242304/040/439	Pinesan is a scented disinfectant cleaner, deodoriser. Used as a disinfectant and general purpose cleaner for walls, floors, urinals, toilets, sanitary bins, refuse bins, etc.	

## REFUSE AREA

BLACK DIP	A general purpose, black tar dip, for use in households, public conveniences, For use in bins and drains.
PINESOL	Pinesol is a concentrated antiseptic blooming liquid. A blend of sanitizers, soaps, detergents and conditioning agents. Formulated for use as an antiseptic solution to disinfect contact surfaces.

## BATHROOMS AND TOILETS

FERN HERBAL	Hair and Body shampoo of superior quality, for all types of hair. Economical in use. Gentle on the skin. Non-irritating to the eyes.
-------------	--

CHARGE	A viscous, toilet bowl cleaner that will leave toilet bowls and urinals clean, germ-free. eliminating offensive odours. It removes rust stains, as well as urine salts, calcium lime and other deposits. Safe on the stainless steel hinges.	
MAXIBAC ACT29/GNR529/242304/040/436	Bathroom cleaner, disinfectant, renovator. High dilution, non alkaline disinfectant cleaner, with broad-spectrum biocidal activity. Superior removal and control of lime-scale deposits. Long lasting fragrance. Leaves baths, litre makes 100 litres of ready to use cleaner.	 SANS 1853
TOILET BOWL CLEANER	T.B.C is a clear red liquid with a pleasant odour. It contains acids, wetting agents, corrosion inhibitors and bacteria acids. It provides a cleaning and stain remover and sanitizing effect on toilet bowls, urinals, etc.	
PEARLETTE	An all purpose pink colour red liquid hand soap, with highly scented lather, formulated for gentle cleaning without drying the skin. Ideal for use in dispensers. Also available in 800ml Sachets for stock control and economy.	
LUSTRE	A superior commercial product, specially formulated to clean, brighten and polish glass surfaces without streaking. LUSTRE has good antistatic properties to keep clean looking windows clean for longer.	 SANS 1828
DYNABOWL	A clear viscous orange liquid which contains acids, wetting agents and corrosion inhibitors. Provides a cleaning and stain remover effect on toilet, bowel, urinals, etc.	
DYNAGEN	Purple coloured thickened high foaming alcohol based general purpose cleaner and food degreaser. Economically formulated to clean a wide range of industrial and commercial areas such as plastic, glass, chrome, etc.	

## AIR FRESHENERS

DYNAFRESH	Concentrated air freshener available in various fragrances (Cherry, Tutti-Frutti, Pine, Lavender, Rose, Badadas).
FRESH	Concentrated air freshener
BLOSSOM (Aerosol)	Liquid air freshener available in various fragrances. Counteracting smoke and other odours encountered in bathrooms, bedrooms, locker rooms and cooking areas.
MAXIFRESH	Economically eliminates unwanted odours in bath rooms, toilets and change rooms and leaves a long lasting pleasant fragrance. Also kills any almome micro organisms/bacteria such as those found in hospitals and institutions.

## SPECIALITY / ADDITIONAL PRODUCTS

BRASSEX	A brass, copper, silver and metal polish. Imparts a brilliant gloss, and leaves a protective finish that red uces tarnishing. Does not scratch.
FURNITURE POLISH	Light emulsion, with lavender fragrance, used as an excellent funiture and wood preservative and polish. Available in cream and aerosol.
IMAGE	Furniture Polish. Contains Carnuba wax. Available in aerosol and bulk. Pleasantly perfumed. Nourishes and protects natural wood surfaces. Imparts brilliant gloss.
LAVOCID ND	Neutral pH cleaner for bathrooms. It cleans and deodorises. For use in hotels, hospitals, nursing homes, schools, gyms and restrooms. Leaves baths, basins, sinks, walls, floors and other hard surfaces clean and smear free, with a long lasting fragrance.
SUPERSOAP	An all purpose white coloured liquid soap, with highly scented lather, formulated for gentle cleaning without drying the skin. Ideal for use in dispensers. Also available in 800ml Sachets for stock control and economy.
WINDOWSOLV	Dilutable glass and window cleaner. Quick, efficient, streak free and economical.

# Floor Care

## POLISHES & SEALERS

DIAMOND SEAL	Contains 24% active polymer solids, Floor finished with DIAMON SEAL exhibit outstanding gloss, durability, leveling and drying properties. It resists scuffing and retains gloss even in the heaviest traffic areas.
DYNAGLO	Contains 20% active polymer solids, Ideal for use with all buffing and polishing machines. One litre produces a brilliant shine with minimum effort. Spray buffs easily and quickly. Removes scratches and scuff marks.
DYNAGLO S	Contains 15% active polymer solids. It is a metal cross-linked polymer floor polish. It dries to a high gloss without buffing. It has a tremendous depth of gloss and excellent wear properties. Easily repairable by spray buffing.
SPRAYBUFF	It cleans and restores floor finish gloss in one application. Adds protection to finish and extends recoating cycle. Does not cause build-ups - Perfumed.
LIQUID WAX POLISH	Buffable high shine. For use on wooden, vinyl and corcolem floors. Excellent for furniture, it nourishes and protects the wood. Available in liquid and solid form.
SOLID WAX POLISH	A solid wax polish
SEALER V	The perfect base for worn vinyl, wooden and corcolem flooring. Gives floors permanent protection.
STONESEAL	A penetrating sealer for natural stone such as marble, travertine, terrazzo, sandstone, slate, terra cotta and ceramic tiles. It bonds onto the stone and acts as a repellent against oils, food stains and water. Protects against stains. Easy to apply, economical use. One litre covers 50-100m <sup>2</sup> depending on stone porosity.
CONSEAL	Concrete or natural stone sealer for new and old floors.
SUMMIT	A high solids floor coating, uniquely manufactured for use with ultra-high speed floor machines. When used with ultra high-speed burnishers, it produces a "wet look" finish with excellent durability. SUMMIT has exceptional levelling drying and anti-slip properties.

## CLEANERS

POLYKLEEN	Heavy duty perfumed all purpose degreaser and cleaner
AUTOSCRUB	An alkaline low foam detergent for maximum cleaning efficiency in washing and degreasing floors of all types. For use with scrubbing machines. It can also be applied by mop or brush, solubilising and emulsifying soils for easy and complete rinsing.
CERAKLEEN LR	A low residue cleaner for ceramic and porcelain tiles. Help to eliminate auto scrubber wheel marks. Concentrated formula, economical in use. Ammoniated Polymer Floor Stripper

RELEASE SP	A revolutionary new Detergent/Degreasing compound, which in its form is non-hazardous and environmentally friendly. It is water-soluble. It can be used for the cleaning of tarmac surfaces and floors.
FLOORKLEEN S	A heavy duty powdered floor cleaner-degreaser, designed to remove heavy grease and oil deposits from floors of all types. Completely soluble in hot and cold water. Powdered floor and general purpose cleaner.
AQUAKLEEN	Heavy duty liquid alkaline cleaner. It has a wide variety of applications. It is high foaming and has excellent detergency qualities and is excellent for degreasing of metal surfaces, concrete surfaces, walls and smokehouses.
TWO PHASE CLEANER	Two Phase Cleaner is used primarily to remove old oil, grease and soil deposits from engineering workshops, drive-ways, paths, yards, etc.
CITRONOX	A super concentrated citrus-based detergent. It contains citrus extracts, fully biodegradable detergents, water conditioners and emollients. It is orange in colour, has a neutral pH and a pleasant orange fragrance. It is used as a multi-purpose cleaner.
CITROKLEEN	A revolutionary multi-purpose citrus based cleaner/degreaser. This water based solvent is non-toxic and fully bio-degradable giving complete safety to the environment and persons handling it.

## CARPET CARE

CARPET BOUQUET	A powder dry rug and room deodorizer that freshens carpets and room-air in one step. Counter-acts odours from pets, smoking and mustiness. Reduces static electricity. Dry powder carpet and upholstery cleaner.
CARPET PRE-SPRAY	A spotting agent to pre-spot carpet stains. Pleasant odour miscible with water, suitable for all carpets. Seam-test is recommendable, as sometimes dyeing is sensitive chemicals.
CARPET DEBROWNER	It reverses browning on carpets caused by alkaline build-up. It aids in the removal of coffee, food colouring, fruit juice, mustard, tea and wine stains.
FABRIC GUARD	Anti-soiling, water and oil-repellent agent for textile floor-coverings and other pile fabrics. Applications also include upholstery, linen and selected garments. Easy spray on or foam applications allow quick drying results.
DYNALENE	Gentle foam cleaner for rugs, carpets and upholstery. Controlled foaming quality, acts to draw soils to the surface for thorough removal. Contains optical brighteners.
UNIDET A	A highly concentrated liquid cleaning compound for use with high pressure and steam cleaning machines.
UNIDET NF	A low foaming powdered general-purpose steam cleaning compound. It contains detergents, wetting agents, degreasing solvents, rinse additives and corrosion inhibitors.
DRIKLEEN	Dry cleaning detergent. It produces an outstanding cleaning effect with water soluble stains even without addition of water to the solvent.
CARPEX TRIO	Off-white fluffy powder used ideally for the cleaning of carpets and upholstery. It contains natural absorbent materials, natural perfumes, anti-static agents as well as soil removing agents that absorb the soil without wetting the carpet.
DEFOAMER	A de-foaming compound for use with steam extraction machines. Stops the build-up of foam in recovery tanks. Helps increase the pick up capacity of the carpet extraction equipment.

BIOFRESH	A concentrated liquid that produces microbes to digest organic matter, render surfaces clean and neutralize undesirable odours. It breaks down dirt, grease and fat from floors and reduces grease in drains. Environmentally friendly product.
BIOFRESH FERN	A concentrated fragranced liquid that produces microbes to digest organic matter, render surfaces clean and neutralize undesirable odours. It breaks down dirt, grease and fat from floors and reduces grease and drains. Environmentally friendly product.

## STRIPPERS

STRIP XPF	A non-ammoniated, non-phosphate polymer floor stripper. It removes floor finishes, waxes and metal cross-linked polymers. Odourless, non-toxic, non-flammable.
DRISTrip	An ammoniated, non-phosphate polymer floor stripper. It removes floor finishes, waxes and metal cross-linked polymers. Odourless, non-toxic, non-flammable.
MAXISTrip	A concentrated, non-ammoniated polymer floor stripper. It removes floor finishes, waxes and metal cross-linked polymers. Economical and convenient. Maxistrip out-performs average floor strippers with minimal use.
DYNASTrip LEX	Paint stripper off any surface
LAVOCID ND	Multi-purpose cleaner with a long lasting citrus fragrance.
ECO TBR	Environmentally friendly tar and bitumen remover
TAR & BITUMEN REMOVER	Ideal for the removal of tar, bitumen, oil, pitch and grease from all hard surfaces. For the cleaning of equipment, rollers, cars, trucks, etc.

## STONE CARE SPECIALITY

RESTONE 1000	A one-step buff system for the restoration of marble, terrazzo, granite and travertine surfaces. It re-crystallizes the surfaces, imparting a high sheen and restoring the stone to near original polished look. Resists scuffs and scratches. Slip resistant. Never requires stripping. Easily applied with standard high-speed floor machine using our "restone polishing pads". Coverage one litre per 200m <sup>2</sup> .
RESTONE 2000	A marble polishing and re-crystallizing powder. Recommended for the maintenance of natural stone surfaces such as marble, granite, travertine and terrazzo. It restores the shine in high traffic areas of hotels, office buildings and other institutions. Durable finish without build up. Slip resistant. Never requires stripping. Easily applied with standard high-speed floor machine using our "restone polishing pads". Coverage one kg per 200 <sup>2</sup> .
RESTONE MPP	One step marble polishing paste for recrystallisation of marble and granite surfaces.

DYNASPOT 1	Wet spotting agent for general spotting	
DYNASPOT 2	Wet spotting agent to remove tannin-containing stains such as coffee, tea, cola, fruit juice and leather stains	
DYNASPOT 3	Wet spotting agent for blood and albumen stains.	
DYNASPOT 4	Wet spotting agent to remove rust	
TRAFFIC LANE SPOTTERS	<p>Superkleen is an excellent spotter for heavily soiled carpet areas. Pre-spot before steam or foam cleaning.</p> <p>Release is an excellent spotter for heavily soiled carpet areas. Pre-spot before steam or foam cleaning.</p>	

## FLOOR SANITISERS

<b>DYNACIDE D30</b> <b>ACT29/GNR529/242304/040/429</b>	Powdered chlorinated disinfectant cleaner for the disinfection and cleaning of all types of equipment and utensils found in food processing plants, dairies, beverage breweries, hospitals, nursing homes, etc. It will disinfect and clean hard surfaces such as walls, floors, toilet bowls, chairs and garbage receptacles.	 SANS 1853
<b>CHLORDET P</b> <b>ACT29/GNR529/242304/040/427</b>	A white, free flowing granular powder, CHLORDET-P contains chlorine for stain removal and sanitizing. CHLORDET-P will produce controlled foam for normal cleaning and sterilizing operations. Used for cleaning and sterilizing of equipment in dairy and food industries. Also used extensively in beverage and brewery plants. Excellent for cleaning and sanitizing tanks and pipelines in the wine industry.	 SANS 1853

## DYNACHEM SPOTTING AGENTS

DYNASPOT 1	Wet spotting agent for general spotting	
DYNASPOT 2	Wet spotting agent to remove tannin-containing stains such as coffee, tea, cola, fruit juice and leather stains	
DYNASPOT 3	Wet spotting agent for blood and albumen stains.	
DYNASPOT 4	Wet spotting agent to remove rust

## Automotive

### DETERGENTS

BLUE SKY	A blue car wash shampoo that contains a blend of synthetic detergents, wetting agents, corrosion inhibitors and selected waxes. It removes oily soil deposits, road dirt and other films, leaving a clean, shiny surface when rinsed and eliminates streaks. It is economical, fully biodegradable and ecologically friendly.
CAR WASH & WAX	Contains a blend of synthetic detergents, wetting agents, corrosion inhibitors and selected waxes. It removes oily soil deposits, road dirt and other films, leaving a clean, shiny surface when rinsed. It eliminates streaks.
CAR WASH CONCENTRATE	Car Wash Concentrate compound. Contains a blend of synthetic detergents, wetting agents and sequestering agents. It removes oily soil deposits, road dirt and other films, leaving a clean, shiny surface when rinsed. It also eliminates streaks.
TRUCKWASH	A speciality cleaner, for high-pressure foaming, and normal washing cleaning applications.

### ENGINE COMPARTMENT/ DEGREASERS

DEGREASER QB	A ready-to-use solvent degreaser, quick splitting.
DYNASOLV HD	A highly concentrated emulsifying solvent that quickly penetrates oil and grease deposits forming an emulsion that turns milky white and rinses away when washed with water.
DYNAKLEEN 100	Granular degreaser for soak cleaning of engine cylinder heads, blocks, etc. Safe on aluminium.
RELEASE SP	A revolutionary new detergent/degreasing compound, which in its form is non-hazardous and environmentally friendly. It is water-soluble.
DYNASOLVE MIP	A solvent emulsion degreaser for removing heavy oil, grease and tar deposits.
PRO-SOLVE	A blue-coloured liquid with a citrus odour. A heavy duty cleaner and degreaser for the removal of grease, oil, tar and other industrial soil from concrete, machinery, engines, floors, walls, etc. This powerful cleaner is non-flammable and biodegradable.
ECO TBR	Environmentally friendly tar and bitumen remover
TAR & BITUMEN REMOVER	Superb solvent degreaser for hard-to-remove waxes, tar, bitumen, etc.

## AUTOMOTIVE SHOP FLOOR CLEANERS

FLOORKLEEN S	A heavy duty powdered floor cleaner degreaser.
TWO PHASE CLEANER	An extra heavy-duty floor cleaner where caked up oil and oil deposits are a problem.

## HAND CLEANERS

DYNAJELL	A semi-gel skin cleaner containing pure and natural ingredients derived from nature's own sources such as organic oils. This is a pleasant product in use as it has a natural citrus smell and effective cleaning properties, which promotes good skin condition. It contains no petroleum solvent derivatives. It removes the most severe industrial grime, oil and grease in complete safety. Also available with coarse sand particle for heavier cleaning.
DYNAJELL GRIT	

## POLISHES

AIRGLO	A liquid car polish with lower polymer concentrates and detergent resistant.
AUTOGLAZE	A polymer based cream car polish, detergent resistant. Ideal for finishing and metallic paints.
AUTOSEAL 99	An automotive sealer providing lasting protection from weather and abrasion. Resistant to detergent washing it exhibits a high gloss finish due to inclusion of softening agents and selected waxes.

## WHEELS

N.S.D.	A moderate gloss, water based formula designed to restore the new look to vinyl and rubber. This product contains no silicones, petroleum distillates or toxins, thereby eliminating fisheye, fire and hazardous problems.
MAGKLEEN	A revolutionary new detergent/degreasing compounding, which in its own form is non-hazardous and environmentally friendly. It is water soluble.
SILICONE	Excellent high gloss and non-streaking old fashioned excellence for tyres and bumpers.
TYRE NU	A tyre rejuvenator and polish for long lasting.
SILGEL	A viscous vinyl and rubber protectant that adds just the right amount of shine while protecting exterior vinyl and rubber. The cling properties of Silgel allows for easier application and less wastage of the product.

## INTERIOR TREATMENT

LUSTRE	Superior commercial product specially formulated to clean, brighten and polish glass surfaces without streaking.
FRESH	Concentrated air freshener
SPRAY-VAC HF	Super upholstery cleaner with high foaming properties for manual use.
SPRAY-VAC LF	Super upholstery cleaner with low foam properties for machine use.
POLYGLOSS	A vinyl and rubber protectant that adds just the right amount of shine while protecting interior and exterior vinyl, rubber and leather.
LEATHER SOAP	Leather conditioning product for cleaning and re-oiling.
SHEEN	A natural, oil based moisturizing cream, formulated to clean, beautify, preserve and protect all smooth leathers.

FABRIC GUARD	Anti-soiling, water and oil-repellent agent for textile floor-coverings and other pile fabrics. Applications also include upholstery, linen and selected garments. Easy spray or foam applications allow quick drying results.
--------------	--

## SPECIALITY

ANTIFREEZE	Coolant for radiator systems
AUTORINSE	A rinse aid for car wash systems containing hydrophobic (water repelling) components.
AUTOSTART	A rapid starter-help for petrol and diesel engines.
BITUSEAL PAINT	A thick, black liquid with a paraffin odour. Soluble in petroleum solvents. The product inhibits corrosion to a certain extent as it yields a flexible film that is durable and heat stable once dry, leaving a solid black finish to the undercarriage of any vehicle.
BRAKE PAD CLEANER	Concentrated solvent blend that removes all types of dirt, dust grease and oil from linings, pads and drums, cylinders and springs without the need to disassemble the unit.
CARBURATOR CLEANER	A highly efficient, non-emulsifying solvent cleaner, which does not interfere with combustion.
PENETROL	A super efficient lubricant, dewatering, rust preventative liquid. Also available in aerosols.

CHIP LITE	A preservative for uncooked potato chips. Prevents browning. Also used for maintaining and preserving freshness of a variety of foodstuffs prior to consumption. Ideal as a dip for skinned potatoes (prevents browning), salads and fruits.	
CIRCUKLEEN L	A low non-foaming, highly alkaline liquid detergent providing 300ppm chlorine at a concentration of 1%. Safe to use on a wide variety of conventional surfaces. Ideal for use in high-pressure washers and bulk tanks cleaning.	 SANS 1828
COLD ROOM CLEANER	Used for cleaning and sanitizing of cold storage rooms where hygiene and cleanliness is of utmost important. Cold Room Cleaner eliminates unpleasant odours by simply destroying the bacteria that causes the problems.	
CRATEWASH	A water white liquid with a neutral odour, slightly viscous liquid. It can be used for the cleaning of plastic crates, smoke houses, floor cleaning where fatty deposits are encountered, baking tins, crates, moulds, etc. It can be used for soak cleaning, C.I.P. cleaning as well as spray applications.	
GREEN-CIDE	A blend of selected ingredients that have a synergistic sanitizing effect on all surfaces. GREEN-CIDE can be used for sanitation of fruit and vegetables both raw and cut pieces. It will prevent spoilage and extend the shelf life of the treated fruit and vegetables	 SANS 1828
CUTTING EDGE	Oven cleaner, grease remover, non-caustic based, environmentally friendly. Provides rapid, thorough removal of baked-on grease, and food from ovens, stovetops, grids, extraction hoods, rotisseries, and other surfaces where carbonized oils, fats and grease exist.	 SANS 1828
CHLORDET L	Low non-foaming liquid detergent sanitiser for the food industry. For the cleaning and sterilizing of equipment by means of C.I.P. cleaning or spraying. Ideal for use in high pressure washers and bulk tanks cleaning. Extensively used in the wine, dairy, agricultural and fishing industries.	
CHLORDET P ACT29GNR529/242304/070/427	A white, free flowing granular powder, CHLORDET P contains chlorine for stain removal and sanitizing operations. Used for cleaning and sterilizing of equipment in dairy and food industries. Also used extensively in beverage and brewer plants. Excellent for cleaning and sanitizing tanks and pipelines in the wine industry.	 SANS 1853
DYNAKLEEN 44L	A premium bottle washing compound. Dynakleen 44L can be used on plant throughout the Food and Brewing Industry. Typical areas include Tanks and Silos, Brew coppers, Fermenting Vessels etc., and associated pipework.	
DYNAKLEEN 88L	A heavy duty alkaline detergent for all CIP, bottle washing and spray cleaning applications. It has low foaming surfactants that effectively penetrates and emulsifies soils.	
DYNAKLEEN HS50	Heavy-duty liquid alkaline cleaner. It has a wide variety of applications. It is high foaming and has excellent detergency qualities and is excellent for scale control.	
IOSAN ACT29GNR529/242304/100/426	An iodine-based sanitizer cleaner for use in the dairy, meat and poultry industries. IOSAN contains 1.9% titrateable iodine.	
LUBRICHAIN	It is used as a conveyor lubricant in beverage and food plants. It keeps chains clean and free of soil thus enhancing the lubricity properties of the product. It eliminates corrosion and reduces chain breakage caused by excessive drag.	
MAXISAN ACT29GNR529/242304/040/438	Maxisan is a concentrated detergent sanitiser. It is light is specially formulated for use in kitchens, fish processing plants, meat factories, butcheries, canning plants, hospitals etc. Maxisan is a blend of sanitizers, detergents and sequestering agents	 SANS 1853

# Speciality Industries

## Food and Beverage continued

MAXISOLVE	A heavy duty degreaser and cleaner for floor, walls, heavy equipment, kitchen areas, windows, engines, etc.	 SANS 1828
NEUTRADET	An opaque viscous liquid with no odour. It is a blend of selected detergents, sequestrates and wetting agents. It is high foaming and contains corrosion inhibitors.	
OXIFOAM ACT29GNR529/242304/140/0487	It contains oxidizing agents, stabilizers, scale and corrosion inhibitors for use in hard surface disinfectant and cleaning. OXIFOAM can also be used as a foaming disinfectant and cleaner for hard surfaces.	 SANS 1853
OXYSAN ACT29GNR529/242304/130/425	An acidic hydrogen peroxide disinfectant. It is ideal for the sanitizing of dairy equipment, utensils, milking machines, etc. OXYSAN can be used for the sanitizing of wine tanks, equipment and utensils in food processing plants.	 SANS 1853
SYNBAC	Synbac is an anti-bacterial hand wash with a neutral odour. It is recommended for use by food plant personnel, prior to handling food or processing equipment. Ideal for meat, fish, poultry and beverage processing plants.	 SANS 1853
SANDET LF	Especially formulated for use in fish processing plants, meat factories, butcheries, canning plants, hospitals, etc. Sandet L/F eliminates unpleasant odours by simply destroying the bacteria that causes them, leaving such areas with an effectively clean odour.	
UNIDET HFC	Heavy-duty liquid alkaline cleaner. It has a wide variety of applications. It is high foaming and has excellent detergency qualities and is excellent for scale control.	

# Laundry

## LIQUID DETERGENTS

DETOMATIC PLUS	The supreme one-shot liquid laundry detergent system for all types of soiling. Highly concentrated, with excellent soil removal properties. Pleasantly fragranced. The finest of the best products on the market. It can be used on all classifications via the DynaChem "MAXI" control automatic dosing systems or manually.
CHOICE LAUNDRY DETERGENT	An economical green liquid laundry detergent for use in automatic laundry machines. It contains a blend of selected detergents, suspending agents, water softening agents and optical brighteners.
DYNADET LD	A liquid laundry detergent for use with automatic dosing units.
SANDET ACT29G NR529/242304/040/438	A concentrated detergent and sanitizer. it is a light coloured clear liquid with a neutral odour.

## POWDER DETERGENTS

DYNAZYME	An enzymatic laundry detergent powder ideal for prewashing of heavily contaminated linen with blood albumen and other organic matter. It removes soiling from all types of garments, safely and efficiently, without the need of harsh treatments.	
LAUNTEX SUPER	Laundry detergent with built in stain remover. Excellent for both white and mixed colours. Effective in all temperatures. Superb cleaning properties.	
SNOWWHITE	Low foam, one-shot powder laundry detergent for automatic washing machines.	
SNOWWHITE 1044	Low foam, one-shot powder laundry detergent for automatic washing machines.	 SANS 1044
SPEED I	<div><p>A low foaming powder detergent for use in top loaders, twin tubs and front loading machines. Excellent for washing of lightly soiled garments.</p></div> <div></div>	

FLAG	Laundry detergent and general-purpose powder. High foaming, for use in both hard and soft water areas. Perfect for Twin tubs and Top-loading machines.
------	--

## LIQUID BLEACH

DYNABAC ACT29GNR529/242304/072/433	A specialized 12-15% chlorine bleach for hard to remove stains. For use on white linen and garments.	 SANS 1853
OXYSAN ACT29GNR529/242304/072/425	An acidic, peroxygen bleach for all types of stains. For quick and efficient bleaching action. It can be used by manual dosing or with the DynaChem "MAXI control" dispensing units. Effective at all temperatures. Disinfects, cleans and whitens fabric. Ideal for use in hospital laundries.	 SANS 1853
OXIDENE	Liquid oxygen bleach for colours and white articles. Most efficient at higher wash temperatures.	

## POWDER BLEACH

DYNAKLOR	Powdered organic chlorine bleach for dry additions. Controlled and complete chlorine release. Long storage stability, safer in use.
DYNAKLOR 497	SABS approved powdered organic chlorine bleach for dry additions. Controlled and complete chlorine release. long storage stability, safer in use.

## STAIN REMOVERS

DYNASPOT 1	Wet spotting agent for general spotting	
DYNASPOT 2	Wet spotting agent to remove tannin-containing stains such as coffee, tea, cola, fruit juice and leather stains.	
DYNASPOT 3	Wet spotting agent for blood and albumen stains.	
DYNASPOT 4	Wet spotting agent to remove rust.	
P.O.G. CLEAR	Spot remover for the hard to remove stains, including paint, oil and grease, ballpoint ink, lipstick, varnish, grass, etc. from both laundry and dry cleaning work.	
NEUTRADINE	Specialized iodine stain remover for spotting, or as an additive to the pre-wash. Removes iodine stains from a variety of fabrics and is safe for use on colours and whites. Compatible for use with our range of washing detergents and additives.	
RUSTIGO	Spot remover for the elimination of rust stains from laundry, textiles and carpets. Safe on all fabrics with exception of metallic fibres. Quick and complete rust removal.	

DYESTRIP	A white granual powder with faint sulphur odour. An excellent spot remover and decolourizer for dye that is not colour fast. This product will remove all non-colour fast dye from all fabrics. Ensure the colour you do not want removed is colour fast BEFORE applying this product to affected areas.
POLYKLEEN NP	A blue non-viscous liquid with a characteristic odour. It is a blend of selected detergents, solvents and water softeners. Contains corrosion inhibitors.
SPOTSOLV	A spotting agent containing a blend of selective solvents that remove oil, grease and grime stains from fabrics. It evaporates completely without leaving any residue. Ideal for use on new or cleaned garments without the need for re-cleaning.

## LIQUID ALKALI BOOSTERS

ALKALI NF	A liquid laundry alkali booster for heavily soiled classifications, for use via the DynaChem "MAXI" control automatic dosing system.
CHOICE ALKALI	An economical, yellow liquid consisting of a blend of alkalies, phosphates, and suspending agents, as well as anti-scaling agents and corrosion inhibitors. Exhibits superior soil suspension, soil removal and efficient rinsing and water hardness neutralization.

## POWDER ALKALI BOOSTERS

ALKALI 499 I/II	A dry alkaline powder that improves the ability of soaps and synthetic detergents to emulsify and suspend soil and stains of all types.
-----------------	---

## SPECIAL USE

DYESTRIP	For the speciality treatment of stained garments
SMEARING WAX	A lubricant wax for use on roller ironers. It cleans, lubricates and removes static from ironer beds. It imparts a smooth finish onto ironed linen. Prevents corrosion of ironer beds, and helps increase the production capacity of ironers.

## SOFTENERS

SOFTONE	Fabric softener, excellent conditioner for towels, nappies, blankets, etc.
FABSOFT	An economical fabric softener. Ideal for laundrettes.
SOFT SOUR	A liquid economical neutralizing agent. Effective and safe on all fabrics. Eliminates yellowing and reduces rinsing cycles. For use with automatic dosing systems and manual feed. It adjusts pH of garments, minimizing potential skin irritation.

## DRY CLEANING

STRAT 92	A dry cleaning detergent with superb stain removing properties of most water-soluble soils. It contains selective detergents, emulsifiers, soil suspending agents and optical brighteners. It can be used in batched or charged systems and as a pre-spotter for garments intended for dry cleaning.
----------	--

# Speciality Industries

## FOOD AND BEVERAGE

ACIDOL	A clear liquid acid, low foaming cleaner especially adapted to the food industry for acid cleaning, scale removing, acidified rinses and brightening of aluminium parts, utensils and equipment. It is designed and compounded for circulation, spray or soak cleaning application.	 SANS 1828
AGRISAN ACT29GNR529/242304/040/542	For all purpose disinfection and sanitization of hard surfaces such as pack sheds, storage bins, sorting tables, grafting apparatus, handling equipment, hands, etc. Also a fruit and vegetable sanitiser.	 SANS 1853
ALDERCIDE ACT29GNR529/242304/110/432	Formulated specially for poultry house terminal sanitation.	
ANTIFOAM	A 15% aqueous emulsion of polydimethylsiloxane used as an antifoam in many industrial and food processing systems. It is recommended as a de-foamer for highly alkaline or acid aqueous systems, exhibiting improved efficiency and longevity over conventional silicone antifoams. This emulsion also provides excellent de-foaming properties in non-ionic, cationic, and anionic systems.	
ALKAKLEEN PC	A versatile, one shot, superior grease cutting and stubborn film removing detergent for CIP. Cuts grease and stubborn films when applied to hard surfaces where other detergents do not.	 SANS 1828
BACTROJEL ACT29GNR529/242304/072/0484	Bactrojel is bactericidal sanitizing jell. Can be used in soap dispensers due to gel like properties. Provides quick, convenient method of obtaining required amount without loss or wastage of product.	 SANS 1853
BOTTLERS ADDITIVE	A liquid additive for caustic soda cleaning solutions. It contains descaling agents, wetting agents, foam control agents, emulsifiers, corrosion inhibitors and rust removing agents.	
CF 10	A dry acid cleaner formulated to remove water and rust scale deposits aluminium, copper, brass, stainless-steel and glass lined tanks. C.F. 10 has no dust free.	
CHLORFOAM ACT5GNR529/242304/072/0484	A specialized foaming cleaner sanitizer formulated for the food industry. CHLORFOAM contains alkalis, wetting agents, chlorinated compounds, foaming agents and corrosion inhibitors. It is ideal for the foam cleaning of equipment, walls, floors, conveyors and other equipment and can be used via high pressure and foam machines.	 SANS 1853

# Speciality Industries

## BUILDING AND CONSTRUCTION

CMA 50	A chloride-free liquid admixture which gives accelerated setting time and high early mechanical strengths when added to concrete during mixing.
CM 105	A specially formulated product designed to meet the requirements of the block paving industry and other dry/semi dry block manufacture, by assisting the production process and improving the quality of the finished product.
CONCLEAN	A brick masonry and concrete cleaner carefully formulated and tested product that has proved beneficial for the building industry, painting industry and the do-it-yourself homeowner.
CONPROOF D	Integral waterproofing admixture. It produces insoluble hydrophobic deposits in the microscopic pores of the hardened cement paste, thereby reducing its permeability.
CONSEAL	Concrete sealer for new and old floors. It is used in the curing, sealing, hardening and dust proofing of concrete. CONSEAL resists against construction stains, oil penetration, mud penetration, traffic stains, water penetration and vapour loss, while at the same time resisting acids, soaps, alkali, grease, oils and water vapour.
CRETESEAL	Multi purpose sealer/adhesive and cement admixture. It improves the chemical and abrasion resistance of concrete. The addition of CRETESEAL enables this screed to be laid because of the strengthening and bonding action it imparts. Dusting is considerably reduced and resistance to breakdown from trolley traffic improves. It ensures strong concrete and minimizes shrinkage cracking.
DENAIR	An air-entertaining agent for concrete. Applied in road work and airport runways where increased durability is required, in mass concrete such as dams, wherever lean mixes are used, to improve and ease placing, compaction, etc. and also road and bridgework.
DYNACURE	Concrete curing compound. The formulation of DYNACURE ensures that the emulsion breaks down to form a non-penetrating continuous film immediately upon contact with a cementitious surface. This film prevents excessive water evaporation, which permits more efficient cement hydration.
DYNAMIX D	Chloride free liquid chemical admixture.
DYNASET	A liquid cement additive for accelerating the rate of setting. Contains calcium chloride.
MELCRETE	A high range melamine based super plasticiser and water reducing admixture.
MORTALITE	It is used in mortars for brickwork, blockwork and backing coats for plaster and external rendering.
RETPLAS	A chloride-free liquid admixture. RETPLAS reacts with the cement, temporarily delaying hydration of the cement paste, and therefore the concrete of which it is part.
SHUTTER RELEASE OIL	A general-purpose mould release agent, which provides quick clean and easy stripping of mould and formwork.
SILICONE WB	A silicone resin solution, which penetrates deeply into porous substrates. This treatment significantly reduces absorption of water. The treatment does not produce any discolouration of the substrates, and has excellent resistance to weathering.
WR 2000	WR2000 is a low dosage, high performance plasticiser / water reducer. It is based on an aqueous solution of modified organic polymer compounds.

# Speciality Industries

## CORROSION

CF ACID	A dry acid cleaner formulated to remove water and rust scale deposits.
COROHIB 50	A solvent cutback corrosion inhibitor.
COROHIB 200A	A solvent cutback, water displacing soft wax/oil base, corrosion preventative compound. The film is oily, light amber and translucent.
COROHIB 500A	A solvent cutback, wax based, general purpose, corrosion preventative compound suitable for the widest range of application requirements, e.g. vehicle rustproofing, machinery and parts in storage, pipework, etc. The cured film is firm, amber, waxy and translucent.
FERROCOAT	It is used as a primer, rust converter or any ferrous surface where rust is destroying metal, in industrial plants, structural steel, ships, bridges, car or truck bodies, storage tanks, equipment, etc.
PENETROL	Penetrating fluid, deatering and rust preventative.
RUST CONVERTOR	An effective chemical, which will convert iron oxide (rust) into a stable sealed magnetic coating, with a hard blue/black crystalline structure, providing and excellent dry surface for protection against further corrosion. RUST CONVERTER is a powerful and extremely thorough converter.
RX 10	Advanced rust penetrating oil.
RUST-B-GONE	A highly effective product that will remove even deep rust on all types of mild steel iron. It is non corrosive and non-toxic and safe for use on all surfaces. It is harmless on aluminium, copper, brass and not even plastic surfaces, rubber or vinyl. This product is biodegradable, non-toxic, non-corrosive and free from harsh acids and alkalies.

# Speciality Industries

## ENGINEERING AND METAL

ALUMBRITE	Aluminium cleaner and brightener. Spray or dip method.	
CARBOKLEEN	Carbon, oil, grease, paints and varnish remover and sealer. Non-corrosive.	
CF 80	An acid based stainless steel cleaner and brightener.	
DEGREASER HD	A highly concentrated emulsifying solvent that quickly penetrates oil and grease deposits forming an emulsion that turns milky white and rinses away when washed with water.	
DYNA DE RUST	Rust remover. Leaves phosphate coating on de-rusted surfaces, for subsequent painting.	
DYNAKLEEN 25	A soak tank cleaner / degreaser. Safe on all metals including aluminium and its alloys.	 SANS 1828
DYNAKLEEN 150	A highly concentrated acidic cleaner for the removal of hardened cement from equipment, tools, scaffolding, etc.	
DYNASOLV 50	A liquid low foaming cleaner for use with high pressure, steam and scrubbing machines.	
DYNASOLV MIP	A solvent emulsion degreaser for removing heavy oil, grease and tar deposits.	
DYNASTRIP LEX	A liquid paint stripper for dip tanks. Removes all types of paint.	
ELECTROSOLV	Electrical contact cleaner (fast dry, medium dry and slow dry). Also available in aerosols.	
FERROSTONE	Chemical blackening and gun blueing compound.	
PAINT STRIPPERS	Available in jelly and liquid phases for all paint stripping requirements.	
PENETROL	Penetrating fluid, dewatering and rust preventative.	
RX10	Advanced rust penetrating oil.	
SILICONE SPRAY	Aerosol silicone based lubricant for rubber, zips, curtain rails, etc.	
STAINLESS STEEL CLEANER	Stainless steel cleaner and brightener.	
STAINLESS STEEL PASTE	Stainless steel cleaning paste, for cleaning and polishing stainless steel, brass and copper surfaces.	
DYNAJELL	A semi-gel skin cleaner containing pure and natural ingredients derived from nature's own sources such as organic oils. This is a pleasant product in use as it has a natural citrus smell and effective cleaning properties, which promotes good skin condition. It contains no petroleum solvent derivatives. It removes the most severe industrial grime, oil and grease in complete safety. Also available with coarse sand particle for heavier cleaning.	
DYNAJELL GRIT		
TAR & BITUMEN REMOVER	An emulsifiable tar, bitument and grease remover.
